CAREER OBJECTIVE

Aspiring Java Backend Developer with a strong foundation in Java, Spring Boot, MySQL, and Data Structures Algorithms. Passionate about designing scalable backend systems, building RESTful APIs, and solving real-world problems through technology. Seeking an opportunity to contribute to impactful software projects in backend engineering, cloud technologies.

EDUCATION

B.Tech in Computer Science (Pursuing)	2023 – 2027
Punyashlok Ahilyadevi Holkar Solapur University, Solapur.(9+SGPA)	
HSC : A.D.Joshi Junior College, Solapur.(Secured 69%)	2021 – 2023
SSC : Suyash Central School, Solapur.(Secured 89%)	2018 – 2021

PROJECTS

Student Management System

Developed a backend application using Java, Spring Boot, MySQL, Hibernate, and Spring Data JPA following Controller-Service-Repository architecture.

Implemented RESTful CRUD APIs, database persistence, dependency injection, and exception handling using Spring Boot best practices.

GuardianEye: AI-Driven CCTV Surveillance and Crime Detection System

Developed an AI-based surveillance system using Computer Vision techniques to analyze CCTV footage and detect suspicious activities.

Built a video processing pipeline for real-time monitoring and automated security alert generation.

Automated Build and Deployment using CI/CD

Designed and implemented a CI/CD pipeline using Git, Jenkins, and Docker to automate application build and deployment workflows.

Applied DevOps practices including version control, build automation, and containerized deployments.

COURSES AND CERTIFICATIONS

Java Programming Masterclass – Udemy

Google Cloud Computing Foundations – Google Cloud

DevOps and Cloud Computing Internship – WisdomSprouts

Spring Boot REST API Development

SKILLS

Technical Skills :

Programming Languages: Java, JavaScript, Python

Backend Technologies: Spring Boot, REST APIs, Hibernate, Spring Data JPA

Frontend Technologies: HTML, CSS, JavaScript

Databases: MySQL

DevOps & Cloud: Docker, Jenkins, Linux

Tools & Platforms: Git, GitHub, VS Code, Maven, Postman

Core CS Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Soft Skills:

Team Collaboration, Problem Solving, Communication, Presentation Skills

ACHIEVEMENTS

- Won a Hackathon conducted by Fabtech College, Pandharpur, for developing *GuardianEye*, an AI-driven CCTV surveillance and crime detection system.
- Secured Runner-up position in the Department-Level Smart India Hackathon (SIH) and qualified for the Institute-Level competition.
- Participated in Chakravyuh 2.0, a technical innovation and problem-solving competition organized by SVERI College of Engineering.
